The streets of the city are hideous with headless bodies. The bodies are cheering was brought by Governor those of the men punished for Walter Clarke of Alaska, who told the looting during the recent rioting.
Few were guilty. Not a single resident that fifty-six more delegates body observed was in uniform. All to vote for Mr. Taft's nomination at were civillans, the majority being cool-ies. They were slain because it was necessary to provide victims to back up Yuan's declaration that bandits were being punished.

Real Thieves In Uniform.

And while these helpless victims were being decapitated by the headsmen, armed with their long, heavy, razoredge swords, the real thieves, all garbed in uniform and many bearing on their collars the insignia showing they were officers of the imperial army, were carrying out of the city thousands of wagon loads of the most valuable loot. Gold, silver, silk, and other treasures taken from the houses of the looted have been stored in safe places. And the majority of the rioters are back with the regular army defiantly waiting for the signal to turn again to looting and murder.

The old-style troops, with their picturesque uniforms and equipment, have been banished. They were ordered to Tung-Ho after they had torn from the walls of the city the flags of the great republic, raised in honor of the taking of the oath of office by President Yuan. They are bitter against the republic and the republican leaders, but Yuan dares not disband them. He does not know what minute he may be called know what minute he may be called on to summon them to the aid of his Manchy troops and the loyal forces of the third division, who stand between him and another uprising.

Legation Quarter Guarded.

The legation quarter here is closed and carefully guarded. Cannon and rapid-fire guns have been mounted where they can sweep the approaches to the gates. Pleked gun crews are on duty night and day. There is a general understanding among the legation guard. Iftrouble comes, it will find the foreigners result to defend them-

There is grave doubt of the position of Dr. Sun Yat Sen and the republican officials at Nanking. Legation officials here say that they have lost caste with their troops, by their policy of inaction, and that most of their soldiers are discontented.

### Lire Comfort:

Then what's the use of breaking down your vigor when there's a way to make and keep your daily life comfortable?

Most persons need all the vitality they can secure. Some have an excess and proceed to destroy it with one or more of the sedative drugs-among the most common of which are coffee and tea. They could use that vigor to "get ahead" in business or whatever pursuit they are engaged in, but, strange to say, many prefer to nullify it with drugs.

However, each one must make choice and pay the bill.

The one who can cut out coffee and tea when they are known to cause sleepless nights and nervous troubles will surely win the laurels.

The change from coffee or tea and their aches and ills to well-made

with health and comfort, is really quite easy.

Postum has a dark brown color which changes to rich, golden brown when cream is added, and the snappy, distinctive flavour (when made according to directions) is very like the mild, high grades of Java coffee.

The change brings refreshing sleep, drives out the coffee and tea troubles and the old condition of health and comfort returns.

Leads to Madness, if not Remedied in

Experiments satisfied me, some rears ago," writes a Topeka woman, 'that coffee was the direct cause of the insomnia from which I suffered terribly, as well as the extreme nervousness and acute dyspepsia which made life a most

painful thing for me. "I had been a coffee-drinker since childhood, and did not like to think that the beverage was doing me all this harm. (Tea is just as harmful because it contains caffeine, the same drug found in coffee.) But it was, and the time came when I had to face the fact, and protect myself. I therefore gave it up, abruptly and absolutely, and

adopted Postum for my hot drink at meals. "I began to note improvement in my condition very soon after I took on Postum. The change proceeded gradually, but surely, and it was a matter of only a few weeks before I found muself entirely relieved. The nervousness passed away, my digestive appara-tus was restored to normal efficiency, and I began to sleep restfully and

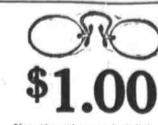

peacefully. "These happy conditions have continued and I am safe in saying that I owe them entirely to Postum, for when I hegan to drink it I ceased to use medicines." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs.

There's really no joy and comfort on earth quite so satisfying as the perfect poise of mind and body—generally yours for the taking.
